Providing high quality medical, restorative and rehabilitative care

Wayne Woodlands Manor

This 121-bed skilled nursing facility was built by Wayne Memorial Health System and opened in August 1994. It offers short-term rehabilitation and long-term care for residents whose physicians have determined that they require skilled nursing care. It also provides respite care for families who need a short vacation from caring for a relative. A restorative nursing program offers ambulation and exercises to keep residents active. The facility also maintains contracts with multiple hospice organizations in the area.

Governance

Wayne Woodlands Manor has established resident, food and family counsel groups which meet regularly to make decisions concerning activities, menus and provision of care. Offsite activities include shopping trips, gentlemen's luncheons, trips to the Wayne County Fair, ice cream sampling at local farmers markets and fishing. Additional van used for activities and special outings.

Hospice Room

Wayne Woodlands Manor provides hospice/palliative care in a special room set up to comfortably accommodate a resident and his/her family. The room offers a home-like setting, including a refrigerator and microwave oven, for family members who wish to stay with their loved one. Using a team-oriented, holistic approach to care and pain management, our licensed professional staff provides physical, emotional and spiritual support expressly tailored to the patients' needs and wishes. Our Social Services staff is also available to help residents' and their families decide if hospice care is appropriate.
