## Forward

This Report and User Guide provides detailed information on many aspects of the assessment. The Report is organized according to Community Health Needs Assessment reporting requirements of the federal Internal Revenue Service.

The Supportive Data Sets themselves may be most useful in that they provide information and analytics upon which assessment findings were based.

Comments on the assessment are appreciated.

3

## A. Community Served

- Wayne Memorial Hospital serves communities located in four counties in northeastern Pennsylvania which border New York State and New Jersey. Wayne Memorial Hospital is a full service hospital and Wayne Memorial Community Health Centers is a federally qualified health center (FQHC) is a key provider of health care services in the area. Seven different communities, most of which are located in either Pike or Wayne counties, PA, make up this service area. Individual assessments were conducted for each one because of the different characteristics of the communities, some of which relate to health disparities, and the different extents to which they rely upon Wayne Memorial for health care services.
  - Seven Communities 135,023 people (2010 Census)
    - Carbondale Area (CA) 27,672
    - Pike East (PE) 29,604
    - Pike South (PS) 10,461
    - Pike West (PW) 20,328
    - Wayne Central (WC) 23,986
    - Wayne North (WN) 5,117
    - Wayne South (WS) 17,855
  - Community boundaries are based upon zip code adjacency, population size, natural fit, and hospital preference. Service area is @100 miles in length from northwest to southeast corner.
    Population density for the Carbondale area is significantly higher (2,740 persons per square mile versus an average of 89 persons per square mile for Pike and Wayne Counties) than other communities.
- The population is projected to decline by 2021 to 132,874 people or 1.6%.
- The map on the following page depicts the area and these different communities.

4

#### Exhibit 1. Service Area Map

Getzville, NY

## B. Community Health Needs Assessment and Process

#### 1. Data and information

Both normative and qualitative data were used in the assessment. Normative data was obtained from 7 major secondary sources and qualitative data was obtained primarily through the Community Health Needs Internet Based Survey and interviews with community and health care leadership throughout the service area. A brief description of these normative sources follows:

- Demographics US Census 2010 and 2021 Forecasts (Nielsen/Claritas)
  County and Community
- Birth Certificate Reports, 2011 through 2013 Pennsylvania Department of Health\* – County and Community
- Death Certificate Reports, 2011 through 2013 Pennsylvania Department of Health\* – County and Community
- Acute Care Hospital Discharge Abstract Reports for NJ, NY and PA Hospitals – County and Community
  - New York 2013 US Department of Health and Human Services (DHHS), Agency for Healthcare Research and Quality (AHRQ) – Healthcare Cost and Utilization Project (HCUP)
  - New Jersey 2013 US Department of Health and Human Services (DHHS), Agency for Healthcare Research and Quality (AHRQ) – Healthcare Cost and Utilization Project (HCUP)
  - Pennsylvania 2014 Pennsylvania Health Care Cost Containment Council (PHC4) through Wayne Memorial Hospital
    Aggregate, data from three states was analyzed
  - Aggregate data from three states was analyzed
- Medicare Claims Data US Department of Health and Human Services (DHHS), Health Research and Services Administration (HRSA) - County, Office of Minority Health (OMH) - 2014
- Health Needs Internet Survey (1,110 respondents), May 2016 County and Community – HMS Associates, Getzville, NY
- Community Leadership and Consumer Conversations (40 individuals; 10 locations), May 2016 HMS Associates, Getzville, NY

Key policy related documents that were reviewed included the Healthy People 2020 assessment and the State Health Improvement Plan (SHIP) prepared by the Pennsylvania Department of Health. Data limitations in general pertained to size of some communities, different reporting periods, and reporting incongruities.

\* Pennsylvania Department of Health REQUIRED DISCLAIMER: "These data were provided by the Bureau of Health Statistics and Research, Pennsylvania Department of Health. The Department specifically disclaims responsibility for any analyses, interpretations or conclusions."

6

#### 2. Data Collection and Analysis\*

The multi-faceted needs assessment methodology used both quantitative or normative inputs and qualitative data. Given the size and considerable differences in community demographics in the service area (for example, Pike East is a weekend commuter community within 85 miles of the greater New York City area, Wayne North, a rural isolated community; and Carbondale, a small rural city), a major feature of the assessment was that analyses were done at the community or sub-county level. Hence a key requirement for the majority of quantitative data sources and subsequent analyses was the availability of data at the zip code or zip code aggregate level. Community level analyses were critical in achieving significant need selection which recognized significant differences in the seven communities within the overall service area and did not obscure the needs of small communities due to lack of large populations.

#### Quantitative

HMS' Primary and Preventive Health Care Services Need Index (PCNI) was used to quantitatively assess variations in community need due to demographic, reproductive health, chronic disease and access to primary care community characteristics.

The Primary Care Need Index is a quantitative method developed by HMS Associates over the past twenty years, beginning with HMS' work in assisting county health departments and general hospitals in New York State with their regulatory needs assessment responsibilities. The methodology's utility is in part based upon its ability to develop and apply relevant benchmarks for assessing significant variation across multiple data sources at zip code-based community or rural county levels. Significance, as a result, is defined by rank or comparative standing.

The Index models the standard Medical Underserviced Area or Community metric and draws on data from demographic sources, vital statistics reports and hospital utilization. Aspects of the Index have been applied to assessment projects in Arizona, Kansas, Michigan, New York, New Jersey, Pennsylvania, and Tennessee.

The data by source are listed on the previous page. Data sets at the county, zip code or aggregate zip code level were requested directly from those sources. Key variables in the data sets by PCNI component are listed in Exhibit 2. Primary Care Need Index Components. For this study, benchmarks included the nine counties in Pennsylvania Health Care Cost Containment Council Region 6 and community level analyses were based on the seven communities in the study. County or community values in the poorest 30% of those studied warrant consideration as an indication of high need.

\*See Supportive Data Sets Section for Detailed Analytical Findings

Consequently, an area's rank on the PCNI, ranks for each component and ranks for each individual metric, rather than deviation from a statistical norm was the determinant of potential high need. In most instances, metric values are percentages of totals (44% of all births were to unmarried women) with the exception of Preventable Inpatient Use metrics which are population based rates.

#### Exhibit 2. Primary Care Need Index Components and Metrics

- DEMOGRAPHIC NEED (Projections 2021)
- Age 65+
- Female: Age 15 44
- 25+, Less than High School Graduate and above
- Families Below Poverty
- Below Poverty, Single Head of Household, Kids < 5 and 5 17</li>
- Population Not White
- HEALTH STATUS REPRODUCTIVE (2011-2013)
- Age of Mother: 15-19
- Birth Weight: <1500 Grams
- Birth Weight: 1500-2499 Grams
- MOM's Weight Status: Underweight
- MOM's Weight Status: Overweight
- MOM's Weight Status: Obese
- Highest Grade Completed by Mother: Grade 9-12, No Diploma
- Mother: Unmarried: Total Unmarried
- Mother: Unmarried: Age of Mother: 19 & Under
- First Trimester Prenatal Visit: No
- Smoking Status During Pregnancy: Yes
- HEALTH STATUS CHRONIC DISEASE (2011-2013)
- Disease of Heart: Total
- Disease of Heart: Ischemic Excluding AMI
- Disease of Heart: Acute Myocardial Infarction (AMI)
- Disease of Heart: Other Heart Disease
- Malignant Neoplasms: Total Malignant Neoplasms
- Malignant Neoplasms: Lung and Bronchus
- Malignant Neoplasms: All Other Sites
- Cerebrovascular
- Disease Chronic Lower Respiratory Disease
- Alzheimer's Disease
- Diabetes Mellitus
- All Other Causes
- Accidents All
- PREVENTABLE INPATIENT USE (2013 and 2014) Modeled after Ambulatory Care Sensitive Conditions (ACSC)
- All ages Inpatient Discharge Rate
- 0 to 17 Inpatient Discharge Rate
- 18 to 64 Inpatient Discharge Rate

HMS Associates Getzville, NY

#### Qualitative

Qualitative data on community opinions and views, indicative in part of a community's readiness for program development or expansion, were gathered from an internet based survey with 22 questions and 1,110 respondent as well as form open-ended face-to-face interviews with 40 individuals at ten locations in the region. Over 40 organizations distributed email invitations to their constituents for the survey and it was advertised in local media. Exhibit 3. Internet Survey Questions listed all the questions on the instrument. During the interviews, participants were asked to discuss their view of the community's most pressing or emerging needs as well as any potential responses to those needs occurring or planned to occur in the next year. Content analysis was conducted on the data from the open-ended interviews and on responses to the general comment section of the internet survey. The results of the analyses are described in the Executive Summary of the 2016 Assessment at www.wmh.org.

#### 3. Collaborative Capacities

There were no formal linkages with organizations conducting current or recent community health needs assessments or studies in the area. Formal collaborative partners for the assessment were Wayne Memorial Hospital, Wayne Memorial Community Health Centers (WMCHC) and HMS Associates, the consulting firm which conducted the study. WMCHC uses similar boundaries to WMH to define its service area and substantiate needs throughout the area. Numerous collaborative capacities are associated with the assessment through data acquisition, analysis and significant need selection. They represent potential implementation partners and include:

- Local School Districts
- Local Community Organizations
- County Legislatures
- County Departments such as Mental Health and Substance Abuse

A listing of participants in the community participants section of the report provides details on potential collaborative partners within the area. A variety of collaborative exchanges took place during the assessment process. The most formal mechanism was the Assessment Advisory Committee which had representation from health care providers, government, local business and schools throughout the region. The 19 member group met in person four times and shared perspectives on the design of the assessment, local needs and service strengths and weaknesses. The Internet Survey design and significant need selection process was heavily influenced by the committee members. See Exhibit 3 for the list of survey questions. Findings are displayed in the Supportive Data Sets.

#### Exhibit 3. Internet Survey Questions

Q 1. What is your age?

Q 2. Are you male or female?

Q 3. Are you currently employed or retired? If so, please indicate below:

Q 4. Are you currently employed in or retired from the health care, prevention, behavioral health, dental care or human services areas? If so, please check those that apply:

Q 5. If you checked none of the above in the last question and you are employed or retired, please indicate your current or past type of employment and status - full time or part time.

Q 6. Are you a full time or part time resident of Pike or Wayne Counties or the Carbondale area? If so, please so indicate which AND the length of time during which you were either a full or part time resident.

Q 7. In what area of the region do you reside? Please refer to the map above.

Q 8. How did you learn about this survey?

Q 9. Do you have a family doctor/primary care practitioner?

Q 10. Please rate the following services based on your view of the need for additional outpatient, unless otherwise indicated, capacity, i.e., more doctors, nurses, health, mental health, or dental health related practitioners or clinics.

Q 11. Please rate the following supportive services based on your view of the need for additional capacity.

Q 12. Please indicate which population groups are in need of additional primary care services.

Q 13. Please rate the importance of the following aspects of health care services:

Q 14. Have you or your family recently gone to a hospital ER in these cities for care? If so, please indicate where and approximately how often.

Q 15. What types of specialty health care services are most needed in the area?

Q 16. Have you or your family gone outside of the area for specialty care?

Q 17. Please indicate where specialty care was received outside the area and how often where applicable.

Q 18. Which type(s) of specialty care did you receive outside the area and were they delivered to you as an inpatient or outpatient?

Q 19. We are concerned about the needs of children and youth in the area. Please rate the following topics.

Q 20. Quality of care has been shown to improve in hospitals which are designed to be more pleasant, comfortable and supportive of patients and their families. Please rate the importance of the following hospital physical characteristics in terms of their impact on the quality or effectiveness of your care at Wayne Memorial Hospital during a hospital stay.

Q 21. Over the past five years, do you feel that the quality of services locally has improved, remained the same or declined?

Q 22. Please rate the importance of the following organizations or groups in promoting healthy lifestyles.

## C. Community Participation

1. Broad based participation

Three mechanisms were used to assure adequate representation of the community within the assessment process. First and perhaps foremost, the assessment was guided by a 19 member advisory committee with individuals from throughout the area. This group reflected the different communities in the area as well as the interests and expertise of schools, health care, community health, behavioral health care, public health, community organizations, businesses and local government. The Assessment Advisory Committee included:

- Jessica Aquilina, Forest City Region School District
- Michele Bannon. City of Carbondale
- Michael Campbell, MD, Wayne Memorial Community Health Centers Honesdale, Behavioral Health
- Donna Decker, Wayne Memorial Hospital Community Health
- · Carrie Demers, MD, Center for Health/Healing
- Jack Dennis, Wayne Memorial Hospital Development and Veterans Programs
- Maria Diehl, Wayne Memorial Hospital Public Relations
- Rashesh Dholakia, MD, MPH, Wayne Memorial Community Health Centers Lords Valley, Behavioral Health
- Juliann Doyle, Wayne Memorial Hospital Advisory Board
- Steve Durkin, Carbondale YMCA
- Dave Hoff, Wayne Memorial Hospital Administration
- Joann Hudak, Wallenpaupack Area School District
- Fred Jackson, Wayne Memorial Community Health Centers Administration
- Wendell Kay, Wayne County Commissioner
- Dirk Mumford, Wayne Memorial Hospital
- Lee Oakes, Wayne Memorial Hospital
- Jim Pettinato, Wayne Memorial Hospital Administration.
- Patrick Pugliese, MD, Wayne Memorial Hospital Emergency Department
- Martha Wilson, Wayne Memorial Hospital System Board and Auxiliary

Four face-to-face meetings took place during the first half of 2016, with findings adopted in June 2016. In addition to overseeing all aspects of the project, the committee was instrumental in:

- · Defining the geographic boundaries of the seven communities studied
- Providing numerous adjustments to the internet based survey
- Contacting organizations which agreed to distribute the survey to their members and participate in conversations on health needs in the area
- · Reviewing the results of the assessment
- Selecting priorities and
- Authorizing the final report for hospital board consideration

The second mechanism was the use of face-to-face interviews conducted during the week of April 18th through 22nd with 40 individuals at 10 locations throughout the area. Similar proportions of interviewees were from Pike and Wayne Counties and the Carbondale area. People from several sectors of the community were interviewed.

| Sector           | Interviewees |
|------------------|--------------|
| Business         | 7.5%         |
| Consumer         | 5.0%         |
| Education        | 17.5%        |
| Elected official | 15.0%        |
| Health           | 20.0%        |
| Human Services   | 7.5%         |
| Mental Health    | 10.0%        |
| Patients         | 17.5%        |
| Grand Total      | 100.0%       |

Exhibit 4. Interviewees Community Sector

Each interview participant was asked to provide his or her view of current or emerging needs and any new programs initiated or planned for the next year to address those needs. Content analyses of interview results were performed and need topics with the highest number of mentions were considered for significant need selection for the overall service area.

The third mechanism for ensuring adequate community participation was the Community Health Needs Assessment Internet Survey administered during the month of May 2016. The survey was publicized by health and behavioral health organizations, community groups, local government, word-of-mouth and the print media. 40 organizations in the area agreed to distribute an email notice advertising the survey to their constituents. 1,110 responses were generated. Most people responded via the community or civic organization channel.

Exhibit 5. Source of Internet Notification

| Sector                          | Percent Responses |
|---------------------------------|-------------------|
| Health or behavioral care       |                   |
| provider                        | 16.8%             |
| Community or civic organization | 23.1%             |
| School                          | 14.0%             |
| Friend or associate             | 6.3%              |
| Library                         | 0.1%              |
| Media                           | 5.2%              |
| Local government                | 8.8%              |
| Other (please specify)          | 25.6%             |
| Total                           | 100.0%            |

12

#### 2. Nature and extent of input

Interviews from 26 different organizations, organizational divisions or businesses were conducted and are potential organizational collaborative partners. Those organizations and sectors of the community are presented in Exhibit 6.

| Sector            | Organization                                             |
|-------------------|----------------------------------------------------------|
| Business          | Forest City News                                         |
| Business          | Pike Economic Development Agency                         |
| Business          | North-Eastern Pennsylvania Telephone Company             |
| Education         | Carbondale Area School District                          |
| Education         | Forest City Area School District                         |
| Education         | Wallenpaupack Area School District                       |
| Education         | Wayne Highlands School District                          |
| Education         | Wayne Elementary School                                  |
| Education         | Western Wayne Area School District                       |
| Elected official  | Carbondale City Clerk's Office                           |
| Elected officials | Pike County Commissioners                                |
| Elected official  | Wayne County Commissioner                                |
| Elected official  | Wayne County Coroner's Office                            |
| Health            | Wayne Memorial Hospital – Administration                 |
| Health            | Wayne Memorial Hospital – Board or Advisory Committee    |
| Health            | Wayne Memorial Hospital – Clinicians                     |
| Health            | Wayne Memorial Community Health Centers - Administration |
| Health            | Wayne Memorial Community Health Centers - Clinicians     |
| Health            | Honesdale Fire Department                                |
| Human Services    | Carbondale YMCA                                          |
| Human Services    | Hamlin Library                                           |
| Human Services    | Pike Area Agency on Aging                                |
| Mental Health     | NHS Human Services                                       |
| Mental Health     | Wayne County Behavioral Health Administration            |
|                   | Wayne Memorial Community Health Centers - Behavioral     |
| Mental Health     | Health Clinician                                         |

#### Exhibit 6. Organizations Interviewed by Sector

13

Behavioral health was reported to be the dominant need overall and for several sectors, notably educators and elected officials. Health related concerns were second, led by businesses. The human services sector focused largely on social condition related needs. These content area are summarized by sector in Exhibit 7.

| Sector           | Behavioral<br>Health | Chronic<br>Disease | Health | Public<br>Health | Social<br>Condition |
|------------------|----------------------|--------------------|--------|------------------|---------------------|
| Business         | 0%                   | 8%                 | 62%    | 0%               | 31%                 |
| Consumer         | 38%                  | 25%                | 38%    | 0%               | 0%                  |
| Education        | 45%                  | 0%                 | 19%    | 0%               | 35%                 |
| Elected official | 45%                  | 5%                 | 9%     | 18%              | 23%                 |
| Health           | 35%                  | 16%                | 40%    | 5%               | 5%                  |
| Human Services   | 0%                   | 27%                | 18%    | 0%               | 55%                 |
| Mental Health    | 95%                  | 0%                 | 0%     | 0%               | 5%                  |
| Patient          | 0%                   | 14%                | 71%    | 0%               | 14%                 |
| Overall          | 39%                  | 10%                | 28%    | 4%               | 19%                 |

#### Exhibit 7. Interview Content Areas by Sector

3. Public Health, Underserved populations, Written Comments on Previous 2013 CHNA and Implementation Strategy

Several individuals on the Advisory Committee have expertise in public health and in addition, data on health status related issues was discussed with, requested and received from the Pennsylvania Department of Health. HMS Associates, the consulting firm preparing the assessment, had extensive experience developing CHNAs for county public health departments in New York in the early 1990s. Additionally, Wayne Memorial participates in the Pennsylvania State Health Improvement Plan (SHIP) and 2016 priorities reflect themes in the current SHIP. The results of the 2016 CHNA are scheduled to be presented at the annual SHIP breakfast in northeastern PA on July 29, 2016.

Underserved individuals were represented in two ways: 1. through numerous discussions with administrative and clinic staff of the Wayne Memorial Hospital Community Health Centers (a federally qualified health center) and 2. through discussion with 7 patients at CHC sites. Most had been underserved, were new patients and highly pleased with access to primary care afforded them by the expanded WMCHC sites.

No written comments were received on either the 2013 CHNA or Implementation Strategy.

## D. Significant Health Needs and Prioritization Process

The 2016 assessment identified significant health needs at the regional, county and community levels. Those needs and in some instances related commentaries by geographic area are:

- Northeastern Pennsylvania Region (Pike and Wayne Counties and Carbondale Area)
  - Chronic Diseases (from the the Need Index)
  - Programs for assisting grandparents raising grandchildren and additional assistance to people with low incomes
  - Substance abuse services, as evidenced by high interest levels in opiate related accidental overdoses and deaths and concern over growing drug use in youth
  - Mental health services, as evidenced by waiting lists for access to psychiatric care, ER use and concerns throughout the community Both preventive services and specialty care for tick borne illnesses
  - References were made to the need for better access to specialists in general with attention on psychiatrists, dermatologists, endocrinologists, neurologists, oncologists, pain management specialists, gerontologists, and cardiologists
  - Primary care service development was viewed to be problematic especially in light of expected retirements of current primary care capacity
- Pike County
  - Major Cause of Death/Chronic Disease Need: Disease of Heart: Acute Myocardial Infarction (AMI)
  - Major Cause of Death/Chronic Disease Need: Malignant Neoplasms: All
  - Reproductive Health: Birth Weight: <1500 Grams
  - Reproductive Health: First Trimester Prenatal Visit: No
  - Preventable Inpatient Care: All ages or selected age group(s)
- Wayne County
  - Major Cause of Death/Chronic Disease Need: Disease of Heart: All
  - Major Cause of Death/Chronic Disease Need: Cerebrovascular Disease
  - Demographic Need: Age 65+
  - Major Cause of Death/Chronic Disease Need: Alzheimer's Disease

15

- Carbondale Area
  - Major Cause of Death/Chronic Disease Need: Disease of Heart: Total and Ischemia
  - Demographic Need: Families Below Poverty
  - Reproductive Health: Mother: Total Unmarried and Unmarried Age of Mother 19 and under Reproductive Health: Birth Weight: 1500-2499 Grams
  - Preventable Inpatient Care: All ages or selected age group(s)
- Pike East
  - Major Cause of Death/Chronic Disease Need: Disease of Heart: Acute Myocardial Infarction (AMI)
  - Reproductive Health: First Trimester Prenatal Visit: No
  - Preventable Inpatient Care: All ages or selected age group(s)
- Pike South
  - Major Cause of Death/Chronic Disease Need: Malignant Neoplasms: All
  - Reproductive Health: Birth Weight: <1500 Grams and 1500-2400 Grams
  - Reproductive Health: First Trimester Prenatal Visit: No
  - Preventable Inpatient Care: All ages or selected age group(s)
- Pike West
  - Demographic Need: Age 65+
  - Reproductive Health: Smoking Status During Pregnancy: Yes
- Wayne Central
  - Major Cause of Death/Chronic Disease Need: Disease of Heart: Ischemic Excluding AMI
  - Major Cause of Death/Chronic Disease Need: Diabetes Mellitus
  - Major Cause of Death/Chronic Disease Need: Alzheimer's Disease
- Wayne North
  - Demographic Need: Families Below Poverty
  - Major Cause of Death/Chronic Disease Need: Disease of Heart: Other Heart Disease
  - Major Cause of Death/Chronic Disease Need: Malignant Neoplasms: All
- Wayne South
  - Major Cause of Death/Chronic Disease Need: Disease of Heart: All
  - Reproductive Health: Mother: Unmarried: Age of Mother: 19 & Under

16

The prioritization process included a consideration of the results of the Primary Care Need Index, Community Health Internet Based Survey and Key Informant Interview processes by the Advisory Committee, with the final step being selection of significant health needs identified in those aspects of the study to be addressed in the 2016 Implementation Strategy. In its final deliberation, the Committee considered approximately 60 key comparative needs and those listed above were selected. In general, more significant needs were selected for those communities with the highest number of key comparative needs as operationally defined by the poorest or second poorest standing among the seven communities.

Exhibit 7.1. Assessment and Significant Needs Selection Process, on the next page summarizes the major aspects of the process.

For more information on these findings, see the Community Health Needs Assessment Summary at www.wmh.org.

## E. Resources

The region contains a variety of health care providers, behavioral health care service providers, religious congregations, libraries and schools, which may have roles in the 2016 Implementation Strategy. There are 781 health related practitioners or organizations, 33 pharmacies, 138 religious congregations, 15 libraries, and 86 educational organizations in the region. Most have relevance to specific communities or counties or health care needs. Subsequent pages and exhibits display numbers of the major types of practitioners and organizations by community. Exhaustive telephone directory based listings and maps are contained in the Supportive Data Sets.

Exhibit 9 – Community Organization Capacities by Type

## F. Impact of 2013 Community Health Needs Assessment

The 2013 assessment identified several priorities, most of which addressed components of the Primary Care Need Index. Numerous organizations were pivotal partners in completing the implementation strategy related actions and contributing to their associated impacts. Those most attributable to Wayne Memorial Hospital are listed below by the following three types of notable action. Linkages and collaboration strengthen access to specialty care – a key need. Facility, financial and administrative support provided resources to agencies developing needed programs as well as the assessment for 2016. Third, new programs or services were developed or expanded by the hospital itself. Most actions impacted more than one need area (demographics, chronic disease, newborn health, preventable inpatient care, or behavioral health).

- Linkages and collaboration with other organizations
  - Regional specialty referrals and collaborations improved through joining an Accountable Care Organization (ACO)
  - Telestroke Program implemented
  - Behavioral Health Unit established at WMH Emergency Room
- Facility, financial or administrative support
  - WMH expansion planning expanded services
  - Development of new primary care or behavioral health capacities by Wayne Memorial Community Health Centers in Hamlin, Honesdale, Lords Valley and Forest City, PA
  - Development of new primary care capacity Veterans Administration clinic (first FQHC clinic in nation) by Wayne Memorial Community Health Centers in Honesdale, PA
  - Development of Primary Care Medical Home (PCMH) in several Wayne Memorial Community Health Centers sites.
  - WMH designated Primary Stroke Center
  - Grant approved for mobile mammogram services
  - Development of expanded outreach and enrollment programs at Wayne Memorial Community Health Centers
  - Development of primary care physician capacities at Wayne Memorial Community Health Centers
  - Provision of entry level employment opportunities for disadvantaged populations
  - HRSA Capital Development grant prepared by WMH received by Wayne Memorial Community Health Centers to develop a new Behavioral Health and Dental Center in Pike County

22

- Service development or operation
  - Helipad construction begun as prerequisite for Level IV Trauma Center designation for WMH
  - Provides town hall meetings and community group meetings to advance the understanding of medical care and access
  - Provides the "Together for Health" school program for 18 years in collaboration w/area schools, focused on delivering health care education and assessments to students in middle and high schools in Wayne and Pike Counties
  - Interventional cardiologist hired by WMH to establish new cardiac catheterization program at hospital
  - Heart and Vascular Center opens with 3 Interventional Cardiologists
  - Interpretation services implemented. Bi-lingual physician hired
  - Breast feeding initiative implemented
  - Behavioral Health Unit established at WMH Emergency Room.
  - Sponsors several support groups: Diabetes, Alzheimer's, Better Breathers, Compassionate Friends, Grief Support, Cancer, Suicide Awareness, Stroke Support
  - Diabetes education classes have expanded from hospital to Wayne Memorial Community Health Centers Family Health Centers.
  - Provides information on medical care and access to care through social media, radio programs and student education

### A. Region – Survey

Survey Questions

Q 1. What is your age?

Q 2. Are you male or female?

Q 3. Are you currently employed or retired? If so, please indicate below:

Q 4. Are you currently employed in or retired from the health care, prevention, behavioral health, dental care or human services areas? If so, please check those that apply:

Q 5. If you checked none of the above in the last question and you are employed or retired, please indicate your current or past type of employment and status - full time or part time. Q 6. Are you a full time or part time resident of Pike or Wayne Counties or the Carbondale area? If so, please so indicate which AND the length of time during which you were either a full or part time resident.

Q 7. In what area of the region do you reside? Please refer to the map above.

Q 8. How did you learn about this survey?

Q 9. Do you have a family doctor/primary care practitioner?

Q 10. Please rate the following services based on your view of the need for additional outpatient, unless otherwise indicated, capacity, i.e., more doctors, nurses, health, mental health, or dental health related practitioners or clinics.

Q 11. Please rate the following supportive services based on your view of the need for additional capacity.

Q 12. Please indicate which population groups are in need of additional primary care services.

Q 13. Please rate the importance of the following aspects of health care services:

Q 14. Have you or your family recently gone to a hospital ER in these cities for care? If so, please indicate where and approximately how often.

Q 15. What types of specialty health care services are most needed in the area?

Q 16. Have you or your family gone outside of the area for specialty care?

Q 17. Please indicate where specialty care was received outside the area and how often where applicable.

Q 18. Which type(s) of specialty care did you receive outside the area and were they delivered to you as an inpatient or outpatient?

Q 19. We are concerned about the needs of children and youth in the area. Please rate the following topics.

Q 20. Quality of care has been shown to improve in hospitals which are designed to be more pleasant, comfortable and supportive of patients and their families. Please rate the importance of the following hospital physical characteristics in terms of their impact on the quality or effectiveness of your care at Wayne Memorial Hospital during a hospital stay.

Q 21. Over the past five years, do you feel that the quality of services locally has improved, remained the same or declined?

Q 22. Please rate the importance of the following organizations or groups in promoting healthy lifestyles.

Note that confidence intervals vary dramatically based on number of respondents per question and answer. For low frequency responses, score variation is estimated to be as high as + 20 or – 20 points at 95% confidence intervals.
