

Workplace COVID-19 Testing

On-site Testing for Your Employees

Keeping your workforce safe during COVID-19 is critical to their well-being and that of your business. **Lake Regional Urgent Care & Occupational Medicine** can provide COVID-19 testing--both rapid and PCR--to your staff while on the job.

- ✓ Testing of both symptomatic and asymptomatic workers
- ✓ On-site testing for employee convenience
- ✓ Testing conducted same-day or within 24-hours, 48-hours or 72-hours
- ✓ Timely test results
- ✓ Ongoing monitoring of those with positive results (includes symptom tracking during quarantine and documentation submitted to employer)
- ✓ Billed for administrative fee only in most cases--cost of test covered through grant funding (when available)
- ✓ Discount when six or more employees are tested during same visit
