- Bachelor of Science Degree in Nursing, Wilkes University, Wilkes-Barre, PA

Nancy Greer, MSN, CRNP, NP-C has been a nurse practitioner since 2004 with experience in primary care, internal medicine, geriatrics, women's health and urgent care. She treats patients age 18 and older. She joined WMCHC in 2023.

Family nurse practitioners are advanced practice providers who diagnose and treat acute and chronic conditions, perform physical exams, order and interpret diagnostic studies, perform procedures and determine the need for specialist intervention. Besides clinical care, family nurse practitioners focus on health promotion, disease prevention, health education and counseling
