

Dr. Harry Propst was dedicated to medicine and the opportunity to serve all who required his surgical skills, without regard to their station in life. To Dr. Propst, each patient was a gift from God.

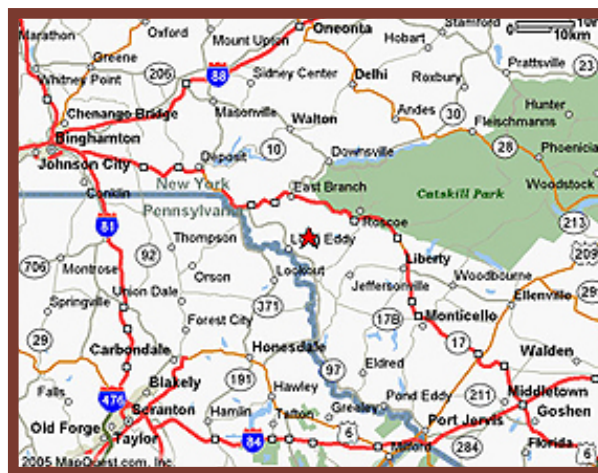

Dr. Propst understood the role of a hospital in the overall health of a rural community, as the place to go for injury and illness, as well as an employer and collaborator with the local education system and local government. Therefore, he volunteered his time and wisdom as Chief of the Medical Staff and a member of the Board of Trustees of Wayne Memorial Hospital for more than 43 years, from 1957 until his death in 2001.

Our annual Harry D. Propst MD Sporting Clays Invitational supports the highest quality healthcare possible throughout the Wayne Memorial Health System service area, which includes Wayne and Pike Counties, and parts of Lackawanna and Susquehanna Counties. This past year, your nonprofit community hospital, Wayne Memorial, saw the expansion of services and territory. Urology was added with seasoned physician Donald L. Preate, Jr., as well as urogynecology with Barbara Plucknett, MD, FACOG. In addition, Wayne Memorial joined in an affiliation with Barnes Kasson Hospital in Susquehanna, PA, extending the Honesdale hospital's services further into Susquehanna County and even Wyoming County. The hospital's affiliate, Wayne Memorial Community Health Centers also brought on a new service, podiatry, enhancing services already offered in primary care, pediatrics, women's health, behavioral health and dentistry.

Please consider joining us this year!
