Together for Health 10th Grade School Program - To provide 10th Grade students with education, information and resources to make healthy lifestyle choices. This is a three/four part program which involves a Keynote Program, clinical measurements, optional lab testing and a resource day where by community organizations provide education and information to students on resources available to them in their local community. A change was made in 2019 to provide this infomation to 10th grade students based on several factors one being the results of the PAYS survey that students complete for PA state data collection. These results showed that 10th grade students were at heightened risk for several health factors.	\$ 1,959	\$ -	\$ 1,959	659
