Dr. Guanqun Li is a distinguished medical professional with a robust educational background and extensive experience in urology. He earned his Doctor of Medicine from SUNY Upstate Medical University, where he has completed his residency in urology. Dr. Li's academic journey began at Hobart and William Smith Colleges, where he graduated magna cum laude with a Bachelor of Science in Biochemistry, earning honors in biology and a minor in health professions. Dr. Li won the Best Poster Award twice at the National American Urological Association meeting in 2023. His dedication to research is evident through multiple publications in reputable journals, including studies on urological health and innovative treatments. Recognized for his excellence, Dr. Li's commitment to medicine extends beyond clinical practice. He has received numerous awards, including the Outstanding Medical Student in Urology award. He is actively involved in professional societies including the American Urological Association, contributing to the field through presentations at national and international conferences.
